

Sprint 1 Report

Product: NVMe over Fabric

Team: NVMe

Date: 1/21/16

ACTIONS TO STOP DOING

- Going off-topic during the scrum meetings

ACTIONS TO START DOING

- Getting everyone more involved in all areas of the project

ACTIONS TO KEEP DOING

- Bringing snacks
- Using Trello and Slack for effective collaboration and communication
- Finishing deliverables efficiently and punctually
- Effective collaboration and communication with our mentor and IT

WORK COMPLETED/NOT COMPLETED

Completed:

- As a developer, I need to understand the installation, setup and management of CentOS so that I can work with my physical servers.
- As a developer, I need a GIT repository configured so that I have a version control repository.
- As a developer, I need to understand the iLO so that I can remotely manage the physical servers.
- As a developer, I need to install GIT on the physical server so that I can have GIT on the server.

- As a developer, I need iLO set up so that I can install the software as well as remote management.
- As a developer, I need the right power supply so that I can get the physical servers up and running.
- As a developer, I need CentOS installed and configured so that I can have an OS.
- As a developer, I need to understand GIT so that I can properly use GIT.

Not Completed:

- As a developer, I need to create a full system backup of the physical server so that I can restore to a safe point in the event something happens.
- As a developer, I need an upgraded kernel so that I have compatibility with the nbdX server.
